## Objective

As a frontend developer with 4 years of experience, I aim to build **scalable, user-centric web applications** while refining my skills in **React, Next.js, performance optimization, and UI/UX development**. My goal is to grow into a **frontend lead or UI architect role**, contributing to innovation and mentoring teams.

## Education

**Poornima Institute Of Engineering & Technologies** (Jaipur), B-Tech in Computer Science Sept 2000 – May 2005

## Technologies

**Web Development:** HTML, CSS, Tailwind CSS, Bootstrap, **Javascript, Typescript, Webpack**

**FrontEnd Framework:** React JS, Next JS, Vue JS

**BackEnd Framework:** Node JS, Express JS, Prisma

**Databases:** MongoDB, Mysql, Postgress SQL

**UI Libraries:** Material UI, Mantine UI, Shadcn/ui

**UI / UX:** Figma

**Version Control:** Git, GitHub, GitLab

**Tools & Others:** VS Code, Postman, Swagger, Slack, Jira

## Experience

**Associate Frontend Developer**, Celebal Technologies Pvt. Ltd, Jaipur, Raj March 2021 – November 2022

- Collaborated with the R & D team on a project leveraging **Microsoft Azure Communication Services (ACS)**, gaining **hands-on experience** with **cloud-based communication platforms**.
- Assisted in developing a **Human Resource Management System (HRMS)** designed to support **10,000 - 20,000 users**, with a focus on **scalability** and **performance optimization**.
- Collaborated with **client feedback** to identify areas for improvement and implement changes, ensuring **smoother project deliveries**.
- Gained **exposure** to version control systems like **Git** and worked in an **Agile environment**, contributing to **regular sprints** and fostering **team collaboration**.

**Software Engineer(Frontend Developer)** , RevDau Industries Pvt. Ltd. – Pune, Maharashtra Feb 2023 – March 2024

- Contributed significantly to a **Network Management System** project by focusing on **front-end development**, creating **custom UI elements**, **dynamic screens**, and **reusable components** to enhance **efficiency** and promote **code reusability** along with **Responsive Design**, **Cross-Browser Compatibility** using **Agile methodology**.
- Independently designed and developed a **Content Management System (CMS)** from the ground up, handling both **front-end development** and **backend integration** to deliver a **fully functional, user-friendly platform**.

**PaveSoft Technologies** , Senior Frontend Engineer LLP. – Pune, Maharashtra April 2024 – Present

- **Successfully managing** multiple projects (2-3) simultaneously, effectively **balancing priorities** and **meeting deadlines** while delivering **high-quality front-end development** across all projects.
- Addressing **complex front-end challenges**, including **performance optimization**, resolving intricate **UI/UX**

issues, and **implementing new features** based on client feedback.

- **Contributed** to the development of a **food delivery app** for chicken and marinades, focusing on building **intuitive user interfaces** and optimizing the app's **performance** for both **mobile** and **desktop users**.
- **Worked on a desktop app for proctoring**, focusing on **performance optimization** to ensure a seamless and efficient user experience.

## Organisations

---

**WebVikasak's (Building Community**

Jan 2004

We build custom websites that are tailored to your unique business needs and goals

We are also building a community for all the developers and creators around the globe

10.1109/TASC.2023.3340648

## Projects

---

### Expanance Tracker

- Developed an expense tracker application to efficiently manage and categorize expenses, providing users with insightful financial summaries.
- Tools Used: React JS, Express JS, React Hooks, HTML/CSS,

### Dynamic Form Builder

<https://dynamic-form-builder-ten.vercel.app/>

- Created a dynamic form builder enabling users to customize and generate forms with real-time previews and seamless data handling.
- Tools Used: React JS, Next JS, Typescript, Tailwind CSS,
